

# DuPont™ Steadfast® Q

herbicide

## Row & Go with an early postemergence treatment

### DuPont™ Steadfast® Q, applied early postemergence in corn, delivers:

- Contact plus residual control of the toughest grass and broadleaf weeds, such as foxtails, Johnsongrass, shattercane, pigweeds and morningglories.
- Built-in safener technology, represented by the “Q,” provides corn growers with the flexibility to confidently apply Steadfast® Q herbicide under more diverse weather conditions, across more hybrids and with a wider range of adjuvants.
- Crop safety across both conventional and herbicide-tolerant corn hybrids. (See label for further details.)

Clean corn 45 days following a row & go early application of 1.5 oz Steadfast® Q + 3 pt atrazine + 1% COC.

### Rate recommendation

DuPont™ Steadfast® Q 1.5 oz/A (40 acres per 60 oz bottle)

The addition of a non-ionic surfactant, crop oil concentrate or methylated seed oil and ammonium nitrogen fertilizer is required. If another herbicide is tank mixed with Steadfast® Q, select adjuvants authorized for use with both products.

### Application information

- Steadfast® Q is labeled for use in corn less than 20 inches tall, up to and including 6-leaf collars (V6).
- Steadfast® Q is rainfast in 1 hour.
- Use a minimum of 15 gallons of water for best performance.
- Tank mix with atrazine/dicamba, Impact/Callisto, DuPont™ Cinch® ATZ and Cinch® ATZ Lite herbicide, or DuPont™ Breakfree® ATZ and Breakfree® ATZ Lite herbicide.

### For more information
